Your Track(s):

This section asks for some details about your recording setup and your thoughts on your mix. None of the questions are compulsory and there's no minimum or maximum to write (feel free to attach extra pages if you want). However, the more you can tell us about the way you've been working and where you want to go, the better we can tailor our suggestions to help you get the sound you're looking for. (If you're submitting more than one track, you might want to send a form for each one.)

1. Audio Setup:

Please describe the equipment you used to record your track(s). For example: recording software, sound card, mixing desk, microphones etc.

2. Instruments:

Please list the instruments you've used in the track, along with any effects or processing you've used.

3. Production Style

What style are you aiming for? Is there a particular artist or song that sounds the way you'd like your finished track to sound?

4. Good Points

What do you like about your track? What do you feel works well?

5. Bad Points

What do you feel doesn't work/needs improvement?

6. Aims

What would you like to do to your track? What are you hoping to get out of this appraisal? Is there any area you'd particularly like us to focus on?
